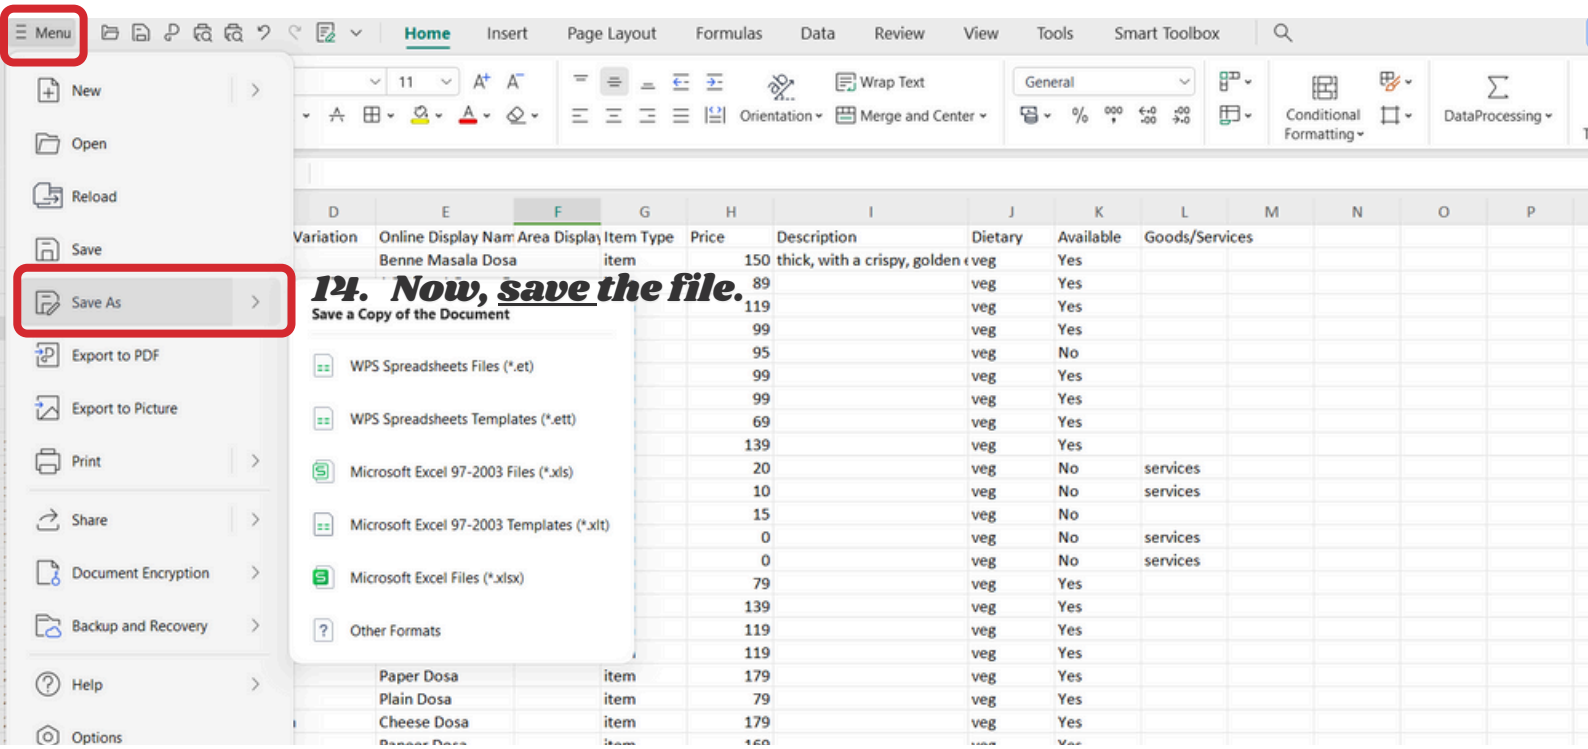
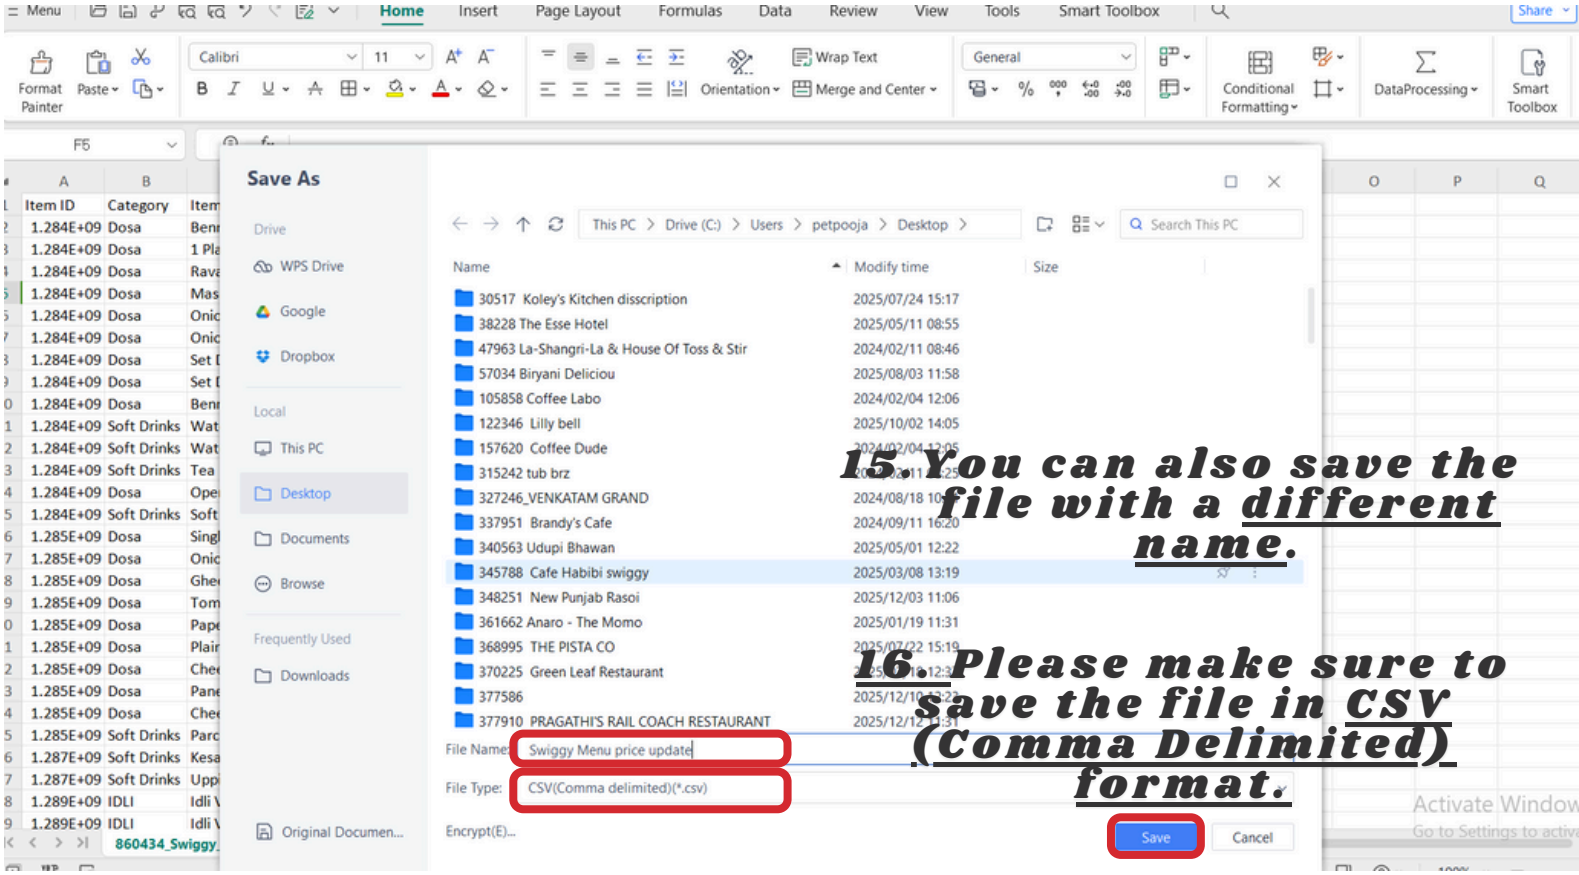
13. For example, we have changed the <u>name and price</u> of one item.

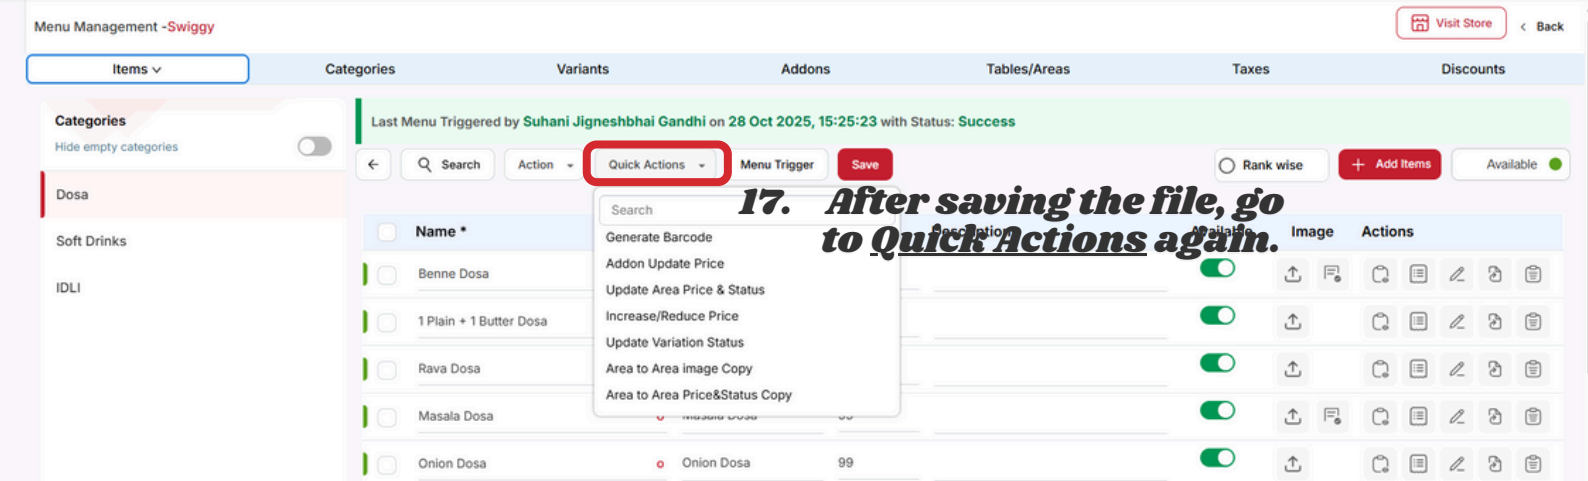


14. Now, save the file.

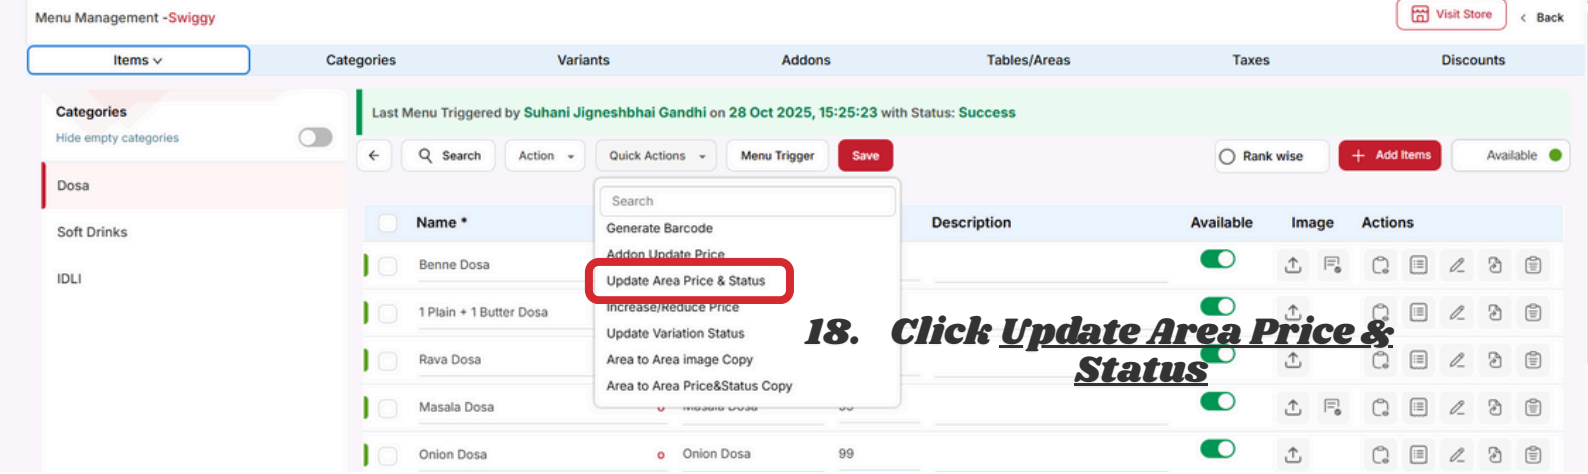


15. You can also save the file with a different name.

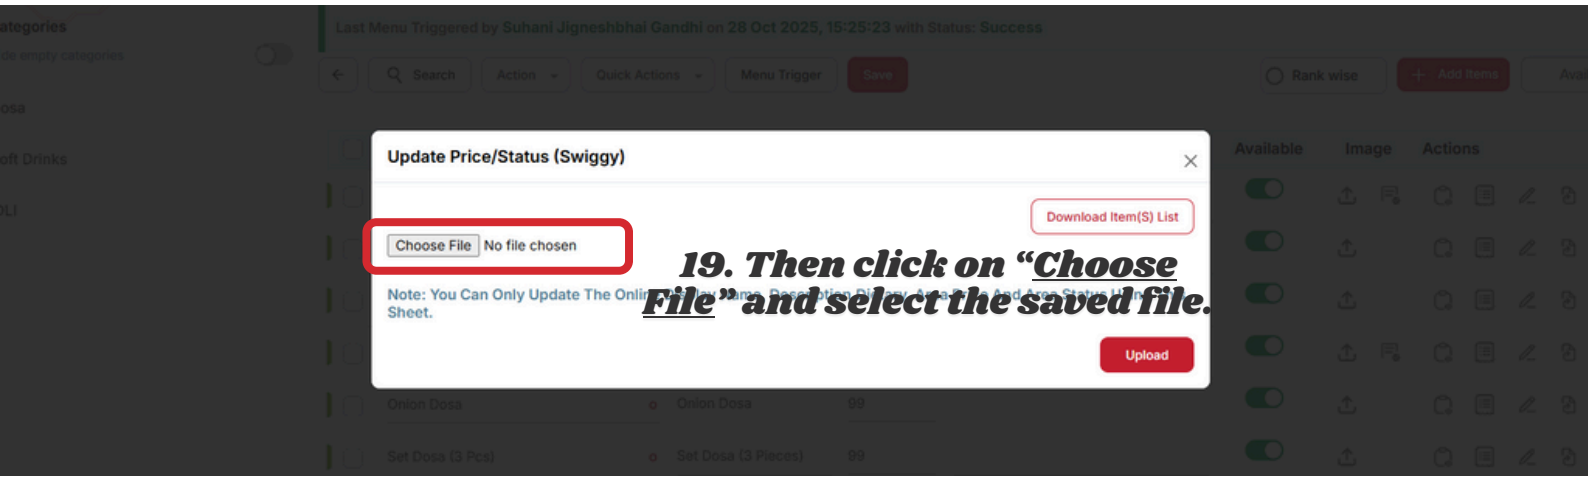
16. Please make sure to save the file in CSV (Comma Delimited) format.



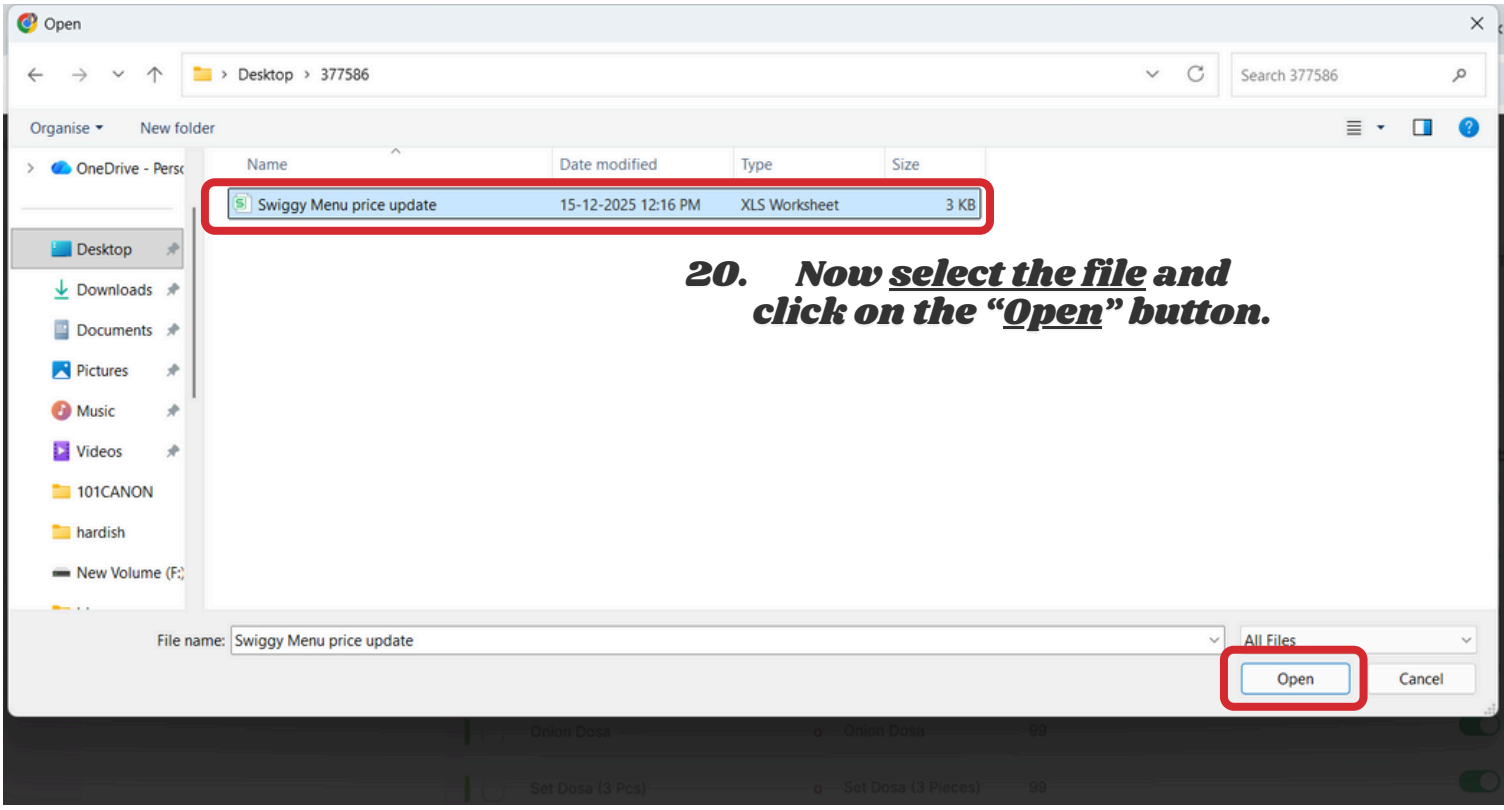
17. After saving the file, go to Quick Actions again.



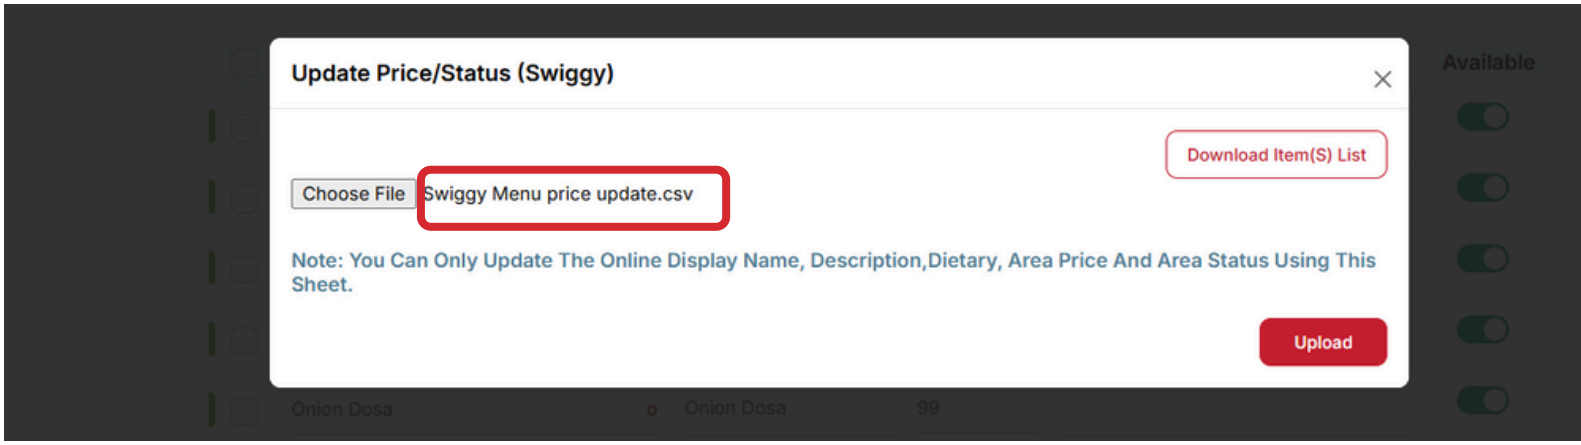
18. Click Update Area Price & Status

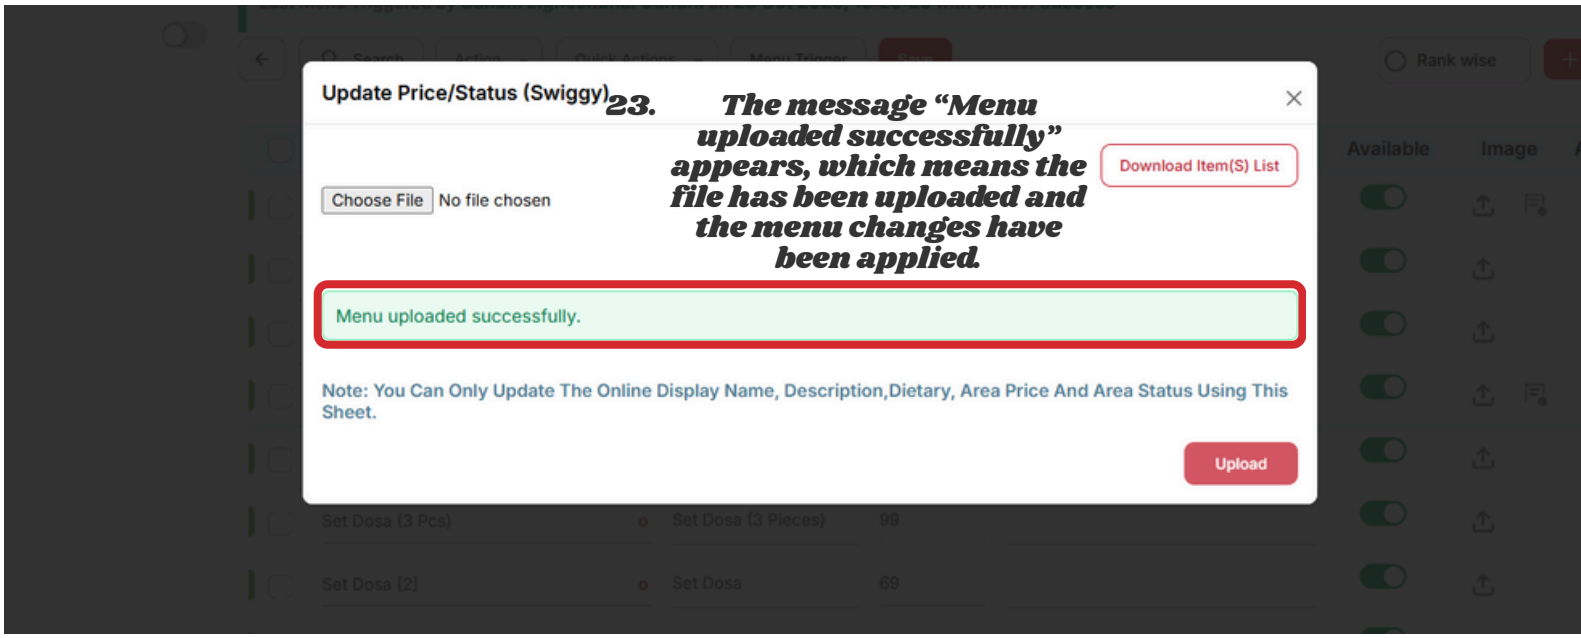


19. Then click on "Choose File" and select the saved file.



20. Now select the file and click on the "Open" button.





Done. The menu file and the requested changes have been updated.

 # If you also need to update prices for Dine-in, you can download the Dine-in file and update the prices in the same way.

 # For Swiggy and Zomato updates, you will need to trigger the menu at the end.

 # Alternatively, you can save this file and email it to support@petpooja.com
